## HOBBIES

## PROFILE

**Objectives:** Passionate in learning new programming languages, quick learning ability and good communication, strong desire to become an expert in testing domain for both manual and automation.

- 7+ years experience in software development on both manual and automation roles
- Experiences in web and mobile automation testing using: extended hybrid framework (data-driven, keyword-driven, page object model) of Selenium, Appium, Cucumber, Gherkins, Serenity
- Experiences in performance testing using JMeter and gatling.io
- Good at defining suitable automation strategy, coding convention, and building API Testing framework
- Worked with Agile teams as well as independent
- Programming Languages: Java (strongest), C#, Typescript, Groovy, PHP
- Database: MYSQL, SQL Server, MongoDB
- OS: Ubuntu, Windows, Mac OS, Android and iOS
- IDE: IntelliJ, Eclipse, Android Studio, NetBeans, Visual Studio Code
- Tools: SourceTree, Studio 3T, JMeter, WinSCP, PuTTY, Chrome DevTools, Jira, Google Docs, Microsoft Office,...

## PERSONALITY

- Able to solve problems, make plans and manage the process
- Responsible, enthusiastic, open-minded and caring
- Maintainable a balanced life, good sense of humor and trustworthy
- Quickly adapt to new environment, eager to learn new tools and new technologies
- Ability to work under high pressure

## EDUCATION

**Major in Software Applications, FPT POLYTECHNIC**  
Sep 2011 — Mar 2014

Ho Chi Minh

**Bachelor of Software Engineering - Information Technology,  
HUTECH University of Technology**  
Mar 2017 — Dec 2019

Ho Chi Minh

I love traveling, enjoy discovering new cultures, learning new technologies and solve challenging problems. Besides that badminton and football are my favorite sport games. I also enjoy reading variety of books, magazines and watching videos about cutting-edge technologies, IT, Economy.

## C O U R S E S

---

**Web Developer at PHP & MYSQL (Microsoft), Nhat Nghe Education JSC**  
Aug 2013

**Learning English, Center for Foreign Affairs and Languages Training in HCMC (CEFALT)**  
Mar 2013 — Mar 2015

**The programming C#, The University of Science - Information Technology**  
Jul 2014

**Completed courses fresher testing, Testingvn.com**  
Sep 2014

**ISTQB Foundation Certificate in Software Testing Training, Testingvn.com**  
Nov 2016

**Completed courses about Java basic and advanced - Green Academy**  
May 2017

**Foundation performance by jmeter, Testingvn.com**  
Mar 2017

**Completed courses Serenity BDD, thucydides.com**  
Feb 2018

**Advanced performance by jmeter, Testingvn.com**  
Aug 2018

**Modern JavaScript From The Beginning**  
Nov 2019 — Feb 2020

## E M P L O Y M E N T   H I S T O R Y

---

**Software Quality Assurance Engineer, Power Trade exchange** HCM  
Mar 2021 — Apr 2022

At PowerTrade, we believe your trading platform should be as mobile and dynamic as you. That's why we're offering a mobile-first trading experience that's designed to be simple, fast, and focused on your success.

**Automation Engineer** #Javascript #Webdriver.io #Appium # JMeter

- Perform E2E testing on iOS and Android devices
- Build automation scripts with supported test cases for Mobile applications and APIs
- Load and stress test APIs using JMeter

**Software Quality Assurance Engineer, CXA Group** Ho Chi Minh  
Sep 2019 — Dec 2020

CXA is not bound by worn tradition or 'the way it's always been done. Modern business needs new and more effective ways to manage the health and well-being of an ever-diversifying workforce.

**Automation Engineer** #Javascript #Webdriver.io #Appium #gatling.io

- Build automation framework (API and UI)
- Implement performance test scripts by gatling.io library
- Implement automation test scripts with supported test cases
- Perform code reviews
- Support manual test on regression

**Senior QC Engineer, Tiki**

Ho Chi Minh

Feb 2019 — Aug 2019

TIKI is the leading online retailer in Vietnam, offering seamless end-to-end retail experience. In TIKI we have a lot project to operate system TIKI and my project is Aftersale

**Automation Engineer** #Java #Selenium #Cucumber #Maven #BDD

- Build automation framework (API and UI )
- Implement automation test scripts with supported test cases
- Perform code reviews
- Support manual test on regression
- Support team trace bug on production env
- Support deploy

**Automation Engineer and Performance Engineer,  
Titan Technology Corporation**

Ho Chi Minh

Jun 2017 — Aug 2018

Auvenir - a Deloitte venture of Audit software #NodeJS #.NET #AWS

**Automation Engineer** #Java #Selenium #Cucumber #Maven #TestNG #BDD

- Build automation framework
- Implement automation test scripts with supported test cases
- Perform code reviews
- Support manual test on regression

**Performance Engineer** #JMeter #HTTPLongPolling #WebSocket

- Analysis documents, make Q&A and give suggestions
- Write JMeter test scripts for Load testing and Stress testing
- Execute test scripts and monitor system
- Execute Client-side Performance Testing with Devtools
- Write and maintain scripts insert data to Database
- Reporting to leader and manager

**Automation Engineer, ANTS Corporation**

Ho Chi Minh

Oct 2016 — Jun 2017

**ANTS** is the leading technology-driven integrated programmatic advertising platform in Southeast Asia.

**Automation Engineer** #Java #Selenium #Maven #TestNG #RestAPITesting

- Build automation UI framework
- Build automation API framework
- Implement automation test scripts with supported test cases

- Support QC manual create huge data test
- Support manual test analysis problem from server and Database

## **Automation Engineer and Performance Engineer, BCS Development Viet Nam**

Ho Chi Minh

Aug 2015 — Oct 2016

**Project:** ent-école web application to manage activity of student and teacher

**Performance Engineer** #JMeter #HTTP #SilkPerformance

- Analysis documents, make Q&A and give suggestion
- Write JMeter test scripts for Load testing and Stress testing
- Execute test scripts and monitor system
- Execute Client-side Performance Testing with Devtools
- Write and maintain scripts insert data to Database
- Reporting to leader and manager
- Data-driven testing, Keyword-driven testing and Hybrid framework
- Establish structure for standard project
- Setup report tool grafana

**Automation Engineer** #Java #Selenium #Maven #TestNG

- Write test case demo and software performance testing
- Implement automation test scripts with supported test cases
- Perform code review

## **QC Engineer, FPT Software**

Ho Chi Minh

Aug 2014 — Aug 2015

**Project:** Toshiba's UCedge™ client brings unified communications to Windows® PCs and Mac® OS X® computers and Android™ and iOS® smartphones and tablets. UCedge works on Toshiba's VIPedge® and IPedge® phone systems, as well as Strata® CIX systems with an IPedge Application Server.

**QC Engineer** #Tests scenarios #Test case #Test plan

- Training and review task of member
- Investigate documents (new features, requirement updates)
- Support team member (review test case/bug, find root cause)
- Create test plan, test cases
- Do smoke, regression and system test
- Discuss with in-house dev to troubleshoot these issues
- Daily report and weekly meeting to PM and offshore
- Analysis and run performance test demo
